MATTHEW MORNE ALLISON

PROFESSIONAL SUMMARY

Hi there, my name is Matthew Allison.

I'm a 24-year-old web developer with 5 years of industry experience, passionate about building modern, practical, and user-friendly digital solutions. I'm currently working toward making web development my full-time career.

What I Bring:

- 5 years of web development experience
- Full-stack development experience
- Strong understanding of JavaScript
- Experience using AI tools to improve development, problem-solving, debugging, and productivity
- Comfortable with both custom coding and no-code/low-code platforms
- Able to build and customize solutions from scratch when needed
- Strong problem-solving skills — I genuinely enjoy tackling challenging problems
- A fast learner who constantly looks to expand my technical knowledge
- Adaptable and comfortable learning new technologies and tools

What I'm Looking For:

I'm looking for freelance opportunities and projects where I can use my skills to create value.

I'm particularly interested in:

- Website development
- Website improvements
- AI-assisted development
- No-code/low-code solutions
- Custom web development

My goal is simple: build great solutions, solve problems, keep learning, and grow through every project I take on.

SKILLS

- High school diploma from Rosebank Progress College

■■■■■■■■■■

- JavaScript - Vue.js, Node.js

WORK HISTORY

May 2023 - Current

Sintrex Intergration Services - Network Services Operator, Durbanville, South Africa

Secured position of Network Operator following successful completion of internship program at Sintrex.

I learnt under Network Engineers, learning new skills like Linux basics, The Docker platform and still learning in this role.

May 2022 - May 2023

Sintrex Intergration Service - Software Developer Intern, Durbanville, Cape Town

Facilitated internship program operations at Sintrex Integration Services.

I learnt under many brilliant developers, enhancing understanding of JavaScript, Node.js and many more. Also picked up new skills like Elasticsearch along the way. Developed web applications using JavaScript frameworks to enhance user experience.

Collaborated with team members to troubleshoot software bugs and improve functionality.

Assisted in designing and implementing database structures for efficient data retrieval.
